

How to delete device

Go to the GPS Tracking section (top menu item on the website).
Select the horizontal menu item “Manage trackers”.

The screenshot shows the 'GPS Tracking' section of the Live GPS Tracks website. At the top, there is a navigation bar with links: Home, GPS Tracking (highlighted in red), Travel Online, Tracks storage, Tools, Soft, Settings, Help, Contacts, a language switch (UK En), and Sign Out. A red arrow points from the 'GPS Tracking' link to a callout box. The box contains the text: 'Online monitoring. In this area, you can view output of software-based trackers and connected devices — yours and owned by other users added you as a friend.' To the right of the box is the 'Live GPS Tracks' logo with the tagline 'GPS TRACKING AND TRAVELS'. Below the navigation bar, there are two horizontal sections: 'GPS/GLOASS real-time monitoring' on the left and 'About section' on the right. Under 'GPS/GLOASS real-time monitoring', there are four buttons: 'View all trackers' (underlined in blue), 'Connect tracker', 'Manage trackers' (highlighted in blue), and 'Plans & Pricing'. A red arrow points from the 'Manage trackers' button to the 'Favorites' section. The 'Favorites' section shows a map of Tallinn with a red dot and a 'familyuser, Car' label. Below the map are 'Full screen' and 'Delete' buttons. To the right are three placeholder boxes for favorite trackers, each with a 'Full screen' and 'Delete' button. At the bottom, there is a 'Useful information' section with links: 'Your plan: Free | Your balance: 1.1 EUR | Gift certificate'.

You will be redirected to the tracker management page.
Each connected tracker has a ‘Remove the device’ option.
Click on it and confirm the deletion.
